

01 PROFILE

Fullstack Developer with 4+ years of experience building high-performance web applications end to end: interfaces in Next.js, React and TypeScript, services in NestJS and GraphQL, and data in PostgreSQL. Experience leading headless e-commerce architectures, integrating payment gateways, electronic invoicing and third-party services, and deploying on Vercel and Railway. Focused on code quality, performance optimization, and translating business requirements into maintainable, scalable solutions.

02 TECHNICAL SKILLS

Frontend: Next.js 15 · React · TypeScript · JavaScript (ES6+) · Vue.js 3 · Nuxt.js · Tailwind CSS · shadcn/ui · Motion / Framer Motion · Pinia · HTML5 · CSS3

Backend & Data: Node.js · NestJS · Express.js · GraphQL · REST APIs · PostgreSQL · MySQL · Prisma · TypeORM · relational modeling · normalization

Cloud & Integrations: Vercel · Railway · Neon · Cloudinary · Wompi · Siigo (DIAN e-invoicing) · WooCommerce REST API · Meilisearch · Resend · Mailrelay · ManyChat

Tools & Methodologies: Git · GitHub · Figma · Postman · Swagger · Linux (Ubuntu) · Scrum · SOLID principles · Screaming Architecture · headless architecture · microservices

03 PROFESSIONAL EXPERIENCE

Tikariy | Fullstack Developer

Jan 2026 – Present

- Develop and maintain a production e-commerce platform for educational products, contributing across frontend, backend, database, integrations, and deployment.
- Build responsive and scalable user interfaces with Next.js, React, TypeScript, Tailwind CSS, and shadcn/ui, focusing on usability and conversion.
- Design and implement backend services with NestJS and GraphQL, including business logic, authentication, product management, orders, and API integrations.
- Design and manage relational data models with PostgreSQL and TypeORM, implementing relationships, migrations, and data access patterns.
- Integrated third-party services — Cloudinary, payment gateways, invoice generation, and WhatsApp communication — and built the admin functionality for managing products, orders, and business operations.
- Contribute to application architecture, debugging, performance optimization, and deployment on Vercel and Railway, translating business requirements into maintainable technical solutions.

Stack: Next.js · React · TypeScript · NestJS · GraphQL · PostgreSQL · TypeORM · Tailwind CSS · shadcn/ui · Cloudinary · Vercel · Railway · Git

EnergyMSI | Fullstack Developer

MONTH 2025 – MONTH 2025

- Developed a modern web platform using Next.js, React, and TypeScript, building responsive interfaces and reusable components focused on user experience.
- Designed and implemented the application's data layer using PostgreSQL on Neon, with Prisma ORM for database modeling and application-level data access.
- Implemented Cloudinary for image storage, management, and delivery, integrating media assets into the application's content workflows.
- Designed and implemented an automated customer communication and lead-generation chatbot using ManyChat, automating user interactions and commercial processes.
- Contributed to architecture, debugging, optimization, version control, and deployment throughout the software development lifecycle.

Stack: Next.js · React · TypeScript · PostgreSQL · Neon · Prisma · Cloudinary · ManyChat · Tailwind CSS · Git

eCommerce | Fullstack Developer (Freelance)

2024 – 2025

- Designed and implemented an e-commerce platform with a microservices architecture, applying SOLID principles throughout the project.
- Built the frontend with Next.js and React (Hooks and modern best practices) and the backend with NestJS, GraphQL, and Node.js over SQL databases and distributed services.
- Applied advanced version control with Git and GitHub, including collaborative workflows and code review.

Jobgether | Web Developer

Nov 2022 – Jul 2023

- Developed features for an international job platform using Vue.js 3 and Nuxt.js, implementing scalable state management with Pinia and improving code maintainability.
- Worked under Scrum in a distributed team, collaborating with developers across multiple countries.

04 ADDITIONAL EXPERIENCE

Colegium · Fullstack Developer · Sep 2021 – Apr 2022. Maintained and evolved education platforms used by schools across Chile with Vue.js, jQuery, and Sass, ensuring cross-browser compatibility.

Market Mix S.A.S · Frontend – Mobile Developer · Sep 2020 – Aug 2021. Interfaces for e-commerce, delivery services, and contact center platforms; hybrid mobile apps with Vue.js, Angular, Ionic, and TypeScript.

05 EDUCATION & LANGUAGES

UNIMINUTO — B.Sc. Software Engineering (relational databases, normalization, cardinality, and referential integrity)

In progress · 5th term

SENA — Technical Degree, Software Programming

Dec 2018 – Feb 2019

Languages — Spanish: native · English: B1 (intermediate)
